2015 – 3rd Quarter

For the quarter ended September 30, 2015, the Company earned net income of \$1,078,000 or \$0.25 per share compared to \$1,218,000 or \$0.29 per share for the same quarter in 2014. The decrease in quarterly net income was primarily due to an increase in salary and employee benefit expense of \$158,000 and foreclosed real estate expense of \$152,000, partially offset by a decrease in income tax expense of \$128,000 and occupancy expense of \$68,000.

Year to date net income as of September 30, 2015 was \$3,537,000 or \$0.84 per share compared to \$3,807,000 or \$0.90 per share for the same quarter in 2014. The decrease in year to date net income was primarily due to an increase of \$410,000 in salary and employee benefit expense, a \$229,000 increase in foreclosed real estate expense and an increase in occupancy expense of \$90,000, partially offset by a decrease of \$300,000 in provision for loan losses and a decrease in income tax expense of \$154,000.

Global economic conditions continue to drive the interest rate environment in the United States. The Federal Reserve has recently been forced to concede that their plans to raise interest rates in 2015 may be in jeopardy due to economic malaise in China and the European Union. As a result, interest rates are near recent lows and interest margins at most financial institutions remain under pressure. The Company's net interest income continues to be resilient and as stated last quarter, the decrease in year to date net income is mainly due to pension costs caused by the low rate environment and occupancy expenses caused by harsh winter weather in the beginning of the year. Increases in foreclosed real estate expense have been offset by a decrease in provision for loan losses, a trend that may continue as foreclosures that have been through a lengthy process necessitated by strict regulations make their way through the system. On the positive side, credit quality in the Company's loan portfolio continues to improve, reducing the likelihood of any significant loan loss provision in the near future.

Progress on the state approved Montreign Casino Resort, along with several other significant but unrelated development projects, is starting to produce more robust economic activity in Sullivan County. The Company's subsidiary, Jeff Bank, is preparing to capitalize on the opportunities provided by the economic development that is expected to result from the casino. The Bank purchased a property in the vicinity of the casino last year and renovation of the building and property into a state of the art banking office will be well under way by the end of this year. A grand opening is expected by the summer of 2016.

Jeff Bank is in the process of upgrading its debit cards to the new chip technology which helps to thwart fraudulent activity. The responsive website we launched in June of this year has been well received and has improved the Bank's search engine priority, making it easier for us to reach new customers. Our mobile banking app, with its "remote deposit anywhere" feature, continues to increase in usage. Combined with our twelve physical locations, our extensive ATM network, telephone and online banking, Jeff Bank provides unparalleled convenience for banking in Sullivan County.

Jeff Bank is committed to the communities we serve. Besides the financial contributions we make to a host of local organizations and causes, our dedicated staff members make valuable contributions of their talent and time to civic and charitable organizations throughout Sullivan County. At Jeff Bank, we appreciate the support we receive from our customers, employees and stockholders who live and work in the communities we serve. With that support, we will strive to provide the exceptional service our customers expect and continue to thrive as the only independent community bank headquartered in Sullivan County.
